Only a licensed cigarette manufacturer, licensed cigarette importer, or licensed cigarette distributor can ship unstamped cigarette packages into the state of Arizona without first filing this notice of shipment. This does not apply to any common or contract carrier that is transporting cigarettes through the state to another location under a proper bill of lading or freight bill that states the quantity, source, and destination of the cigarettes.

A person who transports unstamped cigarette packages within or into the state shall carry in the vehicle used to convey the shipment, invoices or equivalent documentation of the shipment for all cigarettes in the shipment. The invoices or documentation shall indicate:

- the name and address of the consignor or seller,
- the name and address of the consignee or purchaser, and
- the quantity of each brand of cigarettes that is transported.

If you would like to review or obtain a copy of the statute regarding the transportation of unstamped cigarettes, A.R.S. § 42-3205, visit the Arizona State Legislature web site at <http://azleg.state.az.us/ArizonaRevisedStatutes.asp>.
